Your Dreams Our Goal

POORNIMA UNIVERSITY

Member of Association of Indian Universities & Approved by UGC (Govt. of India) under 2(f) & 12(B)

Experiment No.:1

Name of Experiment: Install and Configure R, set working directory.

Aim: To Install R and set working directory .

Source Code:

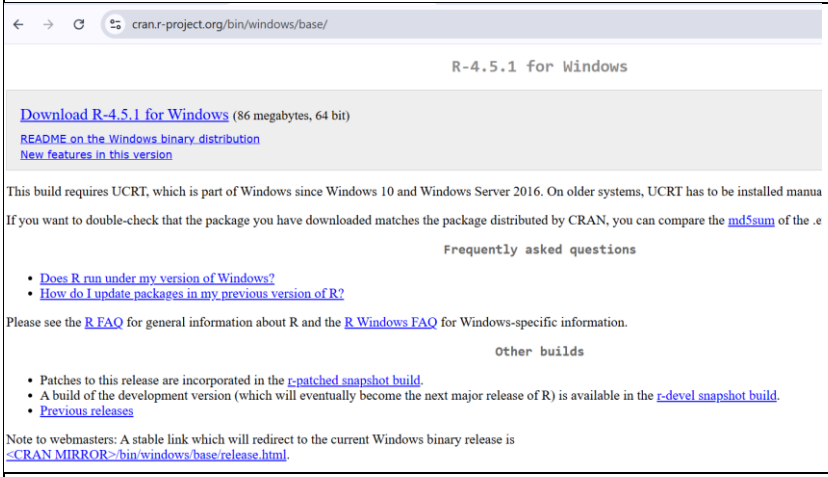

Installation of R

- **R programming** is a very popular language and to work on that we have to install two things, i.e., R and RStudio. R and RStudio works together to create a project on R.
- The official site https://cloud.r-project.org provides binary files for major operating systems including Windows, Linux, and Mac OS.

Steps

Step 1

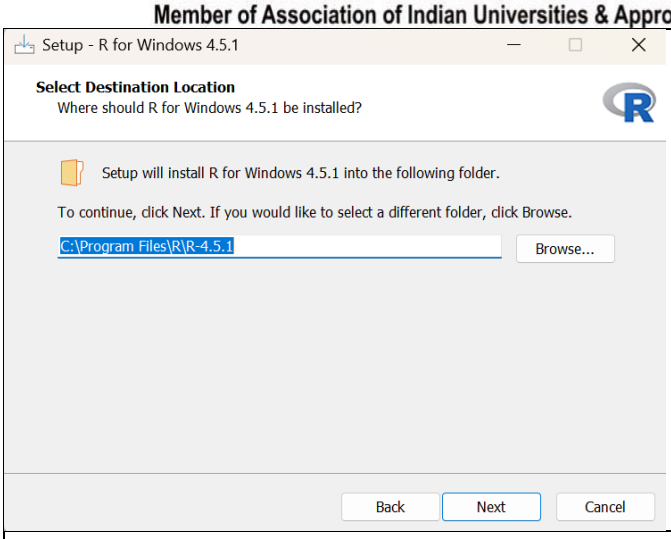

First, we have to download the R setup from https://cloud.r-project.org/bin/windows/base/.

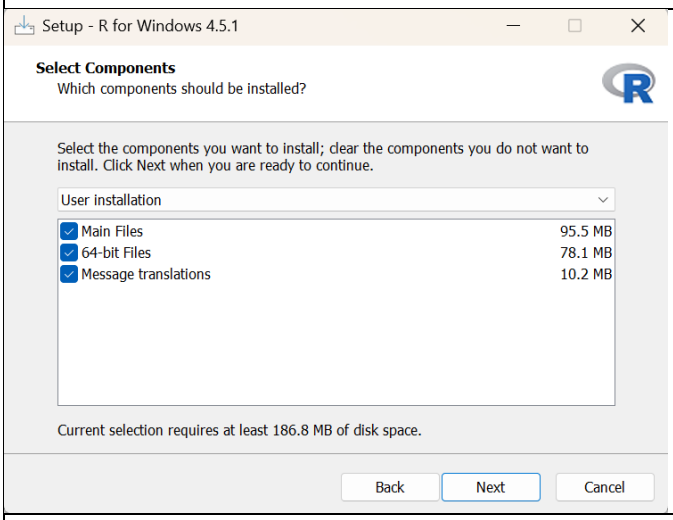

Step 2

- When we click on **Download R-4.5.1 for windows**, our downloading will be started of R setup. Once the downloading is finished, we have to run the setup of R in the following way:

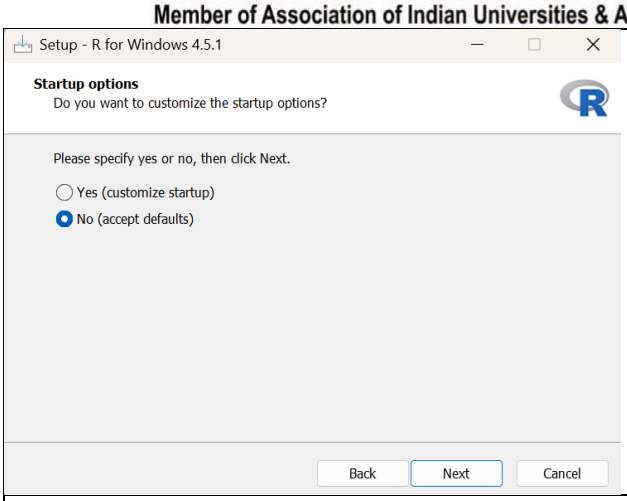

1) Select the path where we want to download the R and proceed to Next.

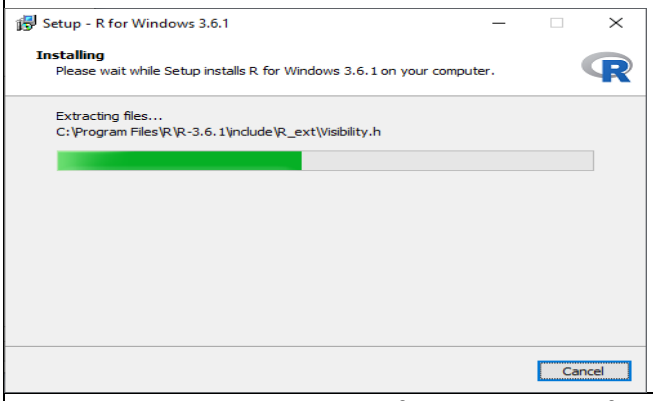

2) Select all components which we want to install, and then we will proceed to **Next**.

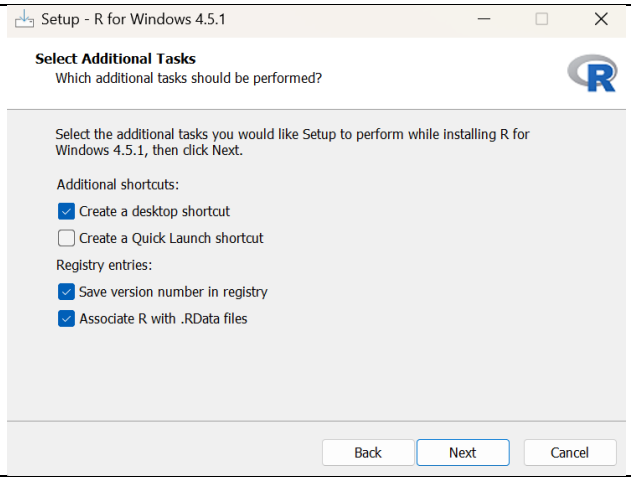

3) In the next step, we have to select either customized startup or accept the default, and then we proceed to **Next**.

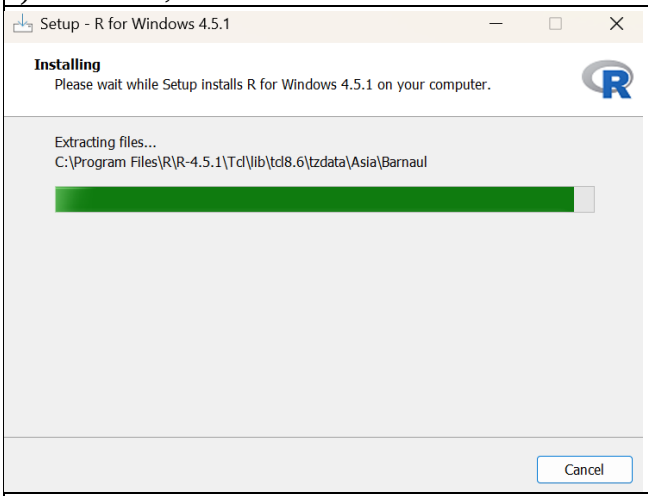

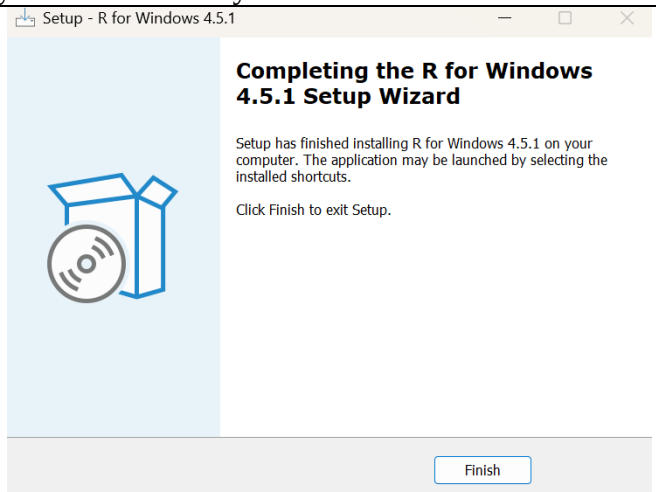

4) When we proceed to next, our installation of R in our system will get started:

5) In the last, we will click on finish to successfully install R in our system.

Installation of R Studio
